Share with us the passion to the ocean

DIVING IN MADEIRA

*...from the tiny anemone-humpbacked-shrimp up to the big amber jack...
...join with us the fascinating underwater-world and the versatility of the Atlantic...*

The ATALAIA DIVING CENTER, is situated adjacent to the underwater natural park, directly at the sea, in the "Lido-Area" of the Hotel Royal Orchid. The small village Caniço de Baixo is at the south-coast of Madeira, about 12km from the capital Funchal.

Our beautiful house-diving-area contains big reefs, with bizarre formations at the Canyon Reef, as well as protected rock-tongues with plenty of clefts and undercuttings (depths between 3 and 30 meters) has something to offer for everyone. The big cave that is part of our house-diving-area highlights the ecological diversity of the Atlantic Ocean.

...and of course dives in the beautiful and unforgettable Marine Reserve of Garajau, with its unbelievable fish-wealth and its known and tame groupers. ...attainable with our rubber dinghy in only 10 minutes.

More dive-spots at the east-coast of Madeira – daytrips for experiences divers
